I am a Frontend Development specialist with a background in management,

About me: I am confident and clear in my thoughts, possessing strong communication and presentation skills. I strive to excel in software development by focusing on user experience and upholding best practices in programming frontend sites.

Personality type: INFJ-A

Specialties: Web Technologies, Negotiation & Business Development.

WORK EXPERIENCE

CodiLime • 05/2021 – Present

Frontend Engineer

- I have the pleasure of being part of a fantastic team, working together to transform ideas into a final product ready for launch in the market, specifically in network engineering services (SDN, SD-WAN, Cloud).
- Responsibilities:
- Creating visually appealing and user-friendly interfaces by utilizing design systems, charts, and frameworks to construct a network monitoring and intelligence platform.
- Developing and documenting reusable UI components with Storybook, which can be easily shared across projects.
- Consuming API, delivering features, and creating interactive interfaces for both mobile and desktop devices.
